W. T. GRANT COMPANY

Your Friendly Family Stores

1441 BROADWAY • NEW YORK 18, N. Y.

To the Stockholders:

In this fifty-sixth annual report for the fiscal year ended January 31, 1963, we are pleased to report a record year in sales and a 7.7% increase in net earnings over the preceding year.

SALES

The sales for the year of \$686,262,689 were the highest in the Company's history. The increase over 1961 was \$111,760,891 or 19.5%. It was the largest sales increase in amount for any one year in our history.

Credit sales also registered a new high. They totalled \$97,477,848 or an increase of 33.4%, and accounted for 14.2% of the Company's total sales. The growth in credit sales reflects the fact that we are selling more big ticket items which our customers want to buy on credit.

EARNINGS

The year's net earnings were \$9,004,122 which, after preferred dividends, equalled \$1.44 per share on 5,849,651 shares of common stock outstanding at the year end.

In 1961, net earnings were \$8,359,313, or \$1.34 per share on 5,812,311 shares of common stock at the year end.

DIVIDENDS

During 1962 the Company paid regular dividends of \$3.75 per share on the preferred stock and regular dividends of \$1.20 per share on the common stock, the same as were paid in 1961.

In 1962, the Company continued its record of earning a profit and paying dividends in every year of its 56 year history.

FINANCIAL COMMENTS

Working capital at the year end was \$124,931,072 which compares with \$119,891,956 at the end of 1961.

Merchandise inventories in stores, distribution centers, and in transit were \$141,046,594 at the year end. This is \$28,161,424 above a year ago. The increase is in new and enlarged stores, in a new distribution center, and also in established stores where expected sales increases require more inventory.

At the year end, installment receivables from customers were \$67,031,170, of which \$66,905,814 had been sold to banks. At the end of 1961, the receivables were \$49,759,767, of which \$32,901,919 had been sold to banks.

GROWTH PROGRAM

In 1962, the Company opened 112 new stores in shopping centers, compared to 113 stores in 1961. In 1962, we also enlarged or relocated 9 stores; reopened one after a fire; and opened our fourth modern distribution center in Albany, Georgia. In 1961, the Company enlarged 10 stores and also opened a new distribution center.

In line with its policy of closing stores which are unprofitable or inadequate to stock the broadening lines of merchandise the Company offers today, 32 stores were permanently closed, mostly as leases expired. With these closings, the net increase in stores for the year was 80.

At the year end, the Company was operating 1,032 stores, 639 of them in shopping centers, a trend in which Grants pioneered. At the end of 1961, there were 952 stores, including 528 in shopping centers.

Capital expenditures in 1962 were \$7,478,000, principally for store fixtures, compared to \$7,855,000 in 1961.

For 1963, Company plans provide for a significant reduction in the number of new store openings. It is anticipated that 80 new stores and 10 enlarged stores will be opened, with capital expenditures of approximately \$6,800,000.

New Grant stores of today average about one-third larger than those opened as recently

as five years ago, the added size being necessary to accommodate the constantly broadening lines of merchandise that we offer in response to customer demands.

PERSONNEL AND ORGANIZATION

At the end of 1962 there were approximately 41,000 employees, compared to 38,000 a year ago.

Salaries, wages, social security taxes, retirement plan contributions, and other benefits totalled \$131,205,257 or 19.1% of sales in 1962. In 1961, this was \$113,121,937 or 19.7% of sales. These totals include social security taxes of \$6,867,940 in 1962 and \$5,249,150 in 1961; and contributions to the retirement plan of \$875,120 in 1962 and \$648,690 in 1961.

The growth program made it possible to promote 171 assistant store managers to store managers in 1962. It also made possible the promotion of 376 store managers to larger stores.

To provide for future manpower needs, the Company had 1,051 men-in-training for store management at the year end, which compares with 1,110 a year ago.

The Company continues to maintain constant development of management manpower. In its group of 21 top management people, the average age is 53 years, and the average length of service, 26 years.

In order to provide better supervision for the increasing number of stores, the Company, on February 1, 1963, divided its stores into six regions and 41 districts. Formerly, there were five regions and 39 districts. At the same time, the Buying Division was aligned into four groups, each with a merchandise manager. Previously, there were three groups and three merchandise managers.

ZELLER'S LIMITED

Zeller's, a Canadian chain with stores similar to Grant stores, of whose common stock the Company owns approximately 51%, had another good year. In 1962, it increased its number of stores from 94 to 100.

Its 1962 sales totalled \$68,797,775 or 9.4% above 1961. Net earnings were \$1,929,994 or \$2.30 per common share, which compares with \$1,903,990 or \$2.27 per common share in 1961.

Zeller's paid dividends of \$1.40 per share in 1962, the same as in 1961.

All the above amounts are in Canadian dollars.

The Company appreciates the contributions made to its performance by its customers, employees, and suppliers.

In 1963, it is expected that both sales and net earnings will increase over 1962, even though we know that competition among retailers will continue to grow.

NOTES TO FINANCIAL STATEMENTS

January 31, 1963

Note A - At January 31, 1963, the Company's equity in the net assets of Zeller's Limited, an approximately 51% owned unconsolidated subsidiary, exceeded the cost of its investment in 383,850 shares of common stock of the subsidiary by approximately \$788,000. The Company's equity in Zeller's net earnings applicable to common stock (before dividends thereon for the year ended January 31, 1963) amounted to approximately \$820,271. During the year, the Company received dividends amounting to \$501,178 from Zeller's Limited.

Note B - The amount shown for the reserve for deferred contingent compensation at January 31, 1963 represents (a) to the extent that allotments are contingently distributable in Common Stock of the Company an amount equivalent to the cost to the Company of 39,686 shares of its Common Stock held for this purpose; and (b) the total remaining in participants' contingent cash allotments. For the year ended January 31, 1963, the amount charged to earnings for this plan was \$75,000.

Note C - The Company has elected to apply "guide-line" depreciation rates and has continued to use accelerated methods in computing depreciation deductions for purposes of income tax reporting while continuing to record depreciation in its accounts utilizing the same rates and straight-line methods as in prior years. For the year ended January 31, 1963 this deduction for income tax purposes was approximately \$3,877,000 more than the aggregate charge for depreciation reflected in the financial statements, and the related federal income taxes have been reflected in the provision for deferred taxes. Federal income tax "investment credit" has been reflected in income during the year to the extent of \$208,000 (48%), and the remaining \$226,000 (52%) will be taken into income over the life of the respective assets.

Note D - Long term debt consists of 4¾% Sinking Fund Debentures dated January 1, 1962 and due January 1, 1987. The indenture provides, among other things, for certain limitations with respect to the declaration of cash dividends, acquisition or disposition of capital stock, and the incurrence of long term indebtedness. Sinking Fund payments begin January 1, 1969 and continue at the annual rate of \$1,500,000. At January 31, 1963, approximately \$20,000,000 of earnings retained for use in the business was free for payment of cash dividends.

Note E - The 3¾% Cumulative Preferred Stock is redeemable at the Company's option in whole or in part at \$100 per share plus accrued dividends to date of redemption.

At January 31, 1963, 482,645 shares of the Company's unissued Common Stock were reserved under the Employees' Stock Purchase Plan. Contracts for the sales of such shares, on a deferred payment basis, are made at approximate market prices at dates of contracts. Shares are issued after completion of payments.

Note F - At January 31, 1963, the Company was lessee of real property under 1,063 leases expiring subsequent to January 31, 1966 at aggregate minimum annual rentals of approximately \$26,154,000 (exclusive of taxes and other expenses payable under terms of certain of the leases). This amount includes approximately \$20,433,000 for minimum annual rentals under 801 leases which were on a percentage of sales basis with specified minimum annual rentals, but does not include any amount for 14 leases which were on a percentage of sales basis without any specified minimum annual rentals.
